Angel King went from co-founding a tech startup during the dot com boom to building Blue Jacket Dairy with her husband. Along the way she learned that thriving is not about waiting for perfect conditions. It comes from intentional choices that bring clarity, reduce burnout, and protect what matters most.

In her speech, Angel shares practical shifts that help leaders and business owners thrive when life refuses to slow down. Audiences discover how to turn reaction into clarity, filter what really matters, and move forward even when the path ahead is uncertain.

Through candid stories, humor, and practical tools, Angel shows that thriving in business and life is about leading with presence, choosing progress, and building confidence for the long run.

Audiences leave with:

- *A simple filter for making clear yes or no decisions*
- *Encouragement to identify and apply transferable skills*
